

New Source Review newspaper advertisements for construction permit applications, October 28, 2004. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: October 26, October 27, or October 28, 2004. Public notices are generally published every two weeks. The previous publication of public notices was October 12 – 14, 2004.

### PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

#### FIRST APPLICANT

The first applicant is MagPro, LLC with a mailing address of 212 West Main Street, No. 194, Camden, TN 38320. They seek to obtain air contaminant permits (Division identification numbers: 03-0055-01/57585 and 03-0055-02/57586) for construction of a Secondary Magnesium Smelting Operation at 501 Overhead Bridge Road, Camden, TN 38327. This proposed operation would consist of a rotary furnace, magnesium holding pot, and associated equipment used to smelt magnesium. Baghouses would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Jim A. Attar is the assigned Division person.

#### SECOND APPLICANT

The second applicant is Vulcan Construction Materials, L.P. with a mailing address of P.O. Box 7, Knoxville, TN 37901. They seek to obtain an air contaminant permit (Division identification number: 03-0006-01/57662) for modification of a Rock Crushing and Sizing Operation located at 8595 Hwy. 192, Holladay, TN 38341. This existing operation consists of crushers, screens, conveyors, and associated equipment used to crush and size non-metallic minerals. Wet suppression is used for pollution control. The requested modification is for the total replacement of existing equipment. There would be physical construction. Regulated air contaminants emitted by this source would not increase. Mr. J. Fuss is the assigned Division person.

For the Benton County "Camden Chronicle"--published once on or before Thursday, October 28, 2004.

The applicant is Bivens Log Homes with a mailing address of 3439 Morganton Road, Maryville, TN 37801. They seek to obtain an air contaminant permit (Division identification number: 05-0201-01/57168) for construction of a Woodworking Operation at the same address. This proposed operation would consist of equipment associated

with a planing mill. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. David Gosslee is the assigned Division person.

For the Blount County "Maryville Daily Times"--published once on or before Thursday, October 28, 2004.

The applicant is Charles Blalock and Sons, Inc. with a mailing address of 1225 Parkway, Sevierville, TN 37862. They seek to obtain an air contaminant permit (Division identification number: 15-0090-01/57667) for an Asphalt Batch Plant located at 2250 Big Hill Road, Lenoir City, TN 37771. This existing operation consists of crushed rock and sand stockpiles, silos, batch mixer, conveyors, hot oil heater, diesel engine generator and associated equipment used to produce hot-mix asphalt. No. 2 fuel oil and No. 4 fuel oil are used for fuel. The requested modifications are to increase the production rate and to add a cyclone. Baghouses are used for pollution control. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. J. Martin is the assigned Division person.

For the Cocke County "Newport Plain Talk "--published once on or before Thursday, October 28, 2004.

The applicant is Whispering Winds, Inc. with a mailing address of 86 Lester Lane, Manchester, TN 37355. They seek to obtain an air contaminant permit (Division identification number: 26-0103-01/57664) for construction of a Human Crematory at 405 Sharp Springs Road, Winchester, TN 37398. This proposed operation would consist of a natural gas-fired incinerator. An after burner would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. G. Latif is the assigned Division person.

For Franklin County "Herald-Chronicle"--published once on or before Thursday, October 28, 2004.

The applicant is Takoma Adventist Hospital with a mailing address of 401 Takoma Avenue, Greeneville, TN 37743. They seek to obtain an air contaminant permit (Division identification number: 30-0048-02/57672) for modification of a Boiler Operation located at the same address. The proposed modification would consist of the addition of a 50 horsepower boiler to be used with existing boilers. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. David Gosslee is the assigned Division person.

For the Greene County "Greeneville Sun"--published once on or before Thursday, October 28, 2004.

The applicant is Butler Stone and Gravel with a mailing address of 1571 Doe Creek Road, Butler, TN 37640. They seek to obtain an air contaminant permit (Division identification number: 46-0042-01/57614) for a Rock Crushing Operation located at the same address. This existing operation consists of a portable jaw and cone crusher, a screen, and conveyors. Wet suppression is used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. K. McLain is the assigned Division person.

For the Johnson County "Tomahawk"--published once on or before Thursday, October 28, 2004.

The applicant is IMCO Recycling, Inc. with a mailing address of P.O. Box 187, Loudon, TN 37774. They seek to obtain an air contaminant permit (Division identification number: 53-0079-05/57464) for construction of a Secondary Aluminum Processing Operation at 388 Williamson Road, Loudon, TN 37774. This proposed operation would consist of aluminum scrap and dross handling with flux addition to a rotary furnace heated with natural gas to produce molten aluminum. A lime-injected baghouse would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Steven R. Simpson is the assigned Division person.

For the Loudon County "News-Herald"--published once on or before Thursday, October 28, 2004.

---

The applicant is Tennessee Valley Authority (TVA) with a mailing address of P.O. Box 2000, Spring City, TN 37381. They seek to obtain air contaminant permits for proposed operations at Watts Bar Highway (State Hwy. 68), seven miles southwest of Spring City, TN 37381, as follows:

(1) Diesel-powered Water Pump (Division identification number: 72-0029-17/57606). This proposed operation would consist of a diesel motor, water pump and associated equipment used to provide power and water in the event of an emergency. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Reynolds is the assigned Division person.

(2) Diesel-powered Generator (Division identification number: 72-0029-18/57607). This proposed operation would consist of a diesel motor and associated equipment used to provide power in the event of an emergency. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Reynolds is the assigned Division person.

For the Rhea County "Herald News"--published once on or before Thursday, October 28, 2004.

---

#### FIRST APPLICANT

The first applicant is Ole South Excavating, Inc. with a mailing address of 275 Robert Rose Drive, Murfreesboro, TN 37129. They seek to obtain an air contaminant permit (Division identification number: 75-0585-01/57420) for a Rock Crushing Operation located west of the intersection of Cason Trail and Saint Andrews Drive, Murfreesboro, TN 37130. This existing operation consists of a crusher, screen, conveyors, and associated equipment used to crush rock. Wet suppression is used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. Mark Reynolds is the assigned Division person.

#### SECOND APPLICANT

The second applicant is Yoplait – Division of General Mills, Inc. with a mailing address of 2695 Stephenson Drive, Murfreesboro, TN 37127. They seek to obtain an air contaminant permit (Division identification number: 75-0579-01/57645) for modification of a Boiler Operation located at the same address. The company proposes to modify the two (2) existing boilers that were previously exempt, and to install an additional boiler. Each of the three (3) boilers would have a heat input rate of 11.842 MMBTU/hr. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. S. Kusumanchi is the assigned Division person.

For the Rutherford County "Daily News Journal"--published once on or before Thursday, October 28, 2004.

---

The applicant is Tarkett Wood, Inc. with a mailing address of 333 East Maple Street, Johnson City, TN 37601. They seek to obtain an air contaminant permit (Division identification number: 90-0005-06/57686) for modification of a Woodworking Operation located at the same address. This existing operation consists of various planers, saws, sanders, and related woodworking equipment. A baghouse is used for control of particulate emissions. The proposed modification is the addition of several new pieces of woodworking equipment. The additional equipment would be controlled by a new baghouse. There would be physical construction. Regulated air contaminants emitted by this source would increase. Ms. S. Shukla is the assigned Division person.

For the Washington County "Johnson City Press"--published once on or before Thursday, October 28, 2004.
